

Technical Data Sheet

Installation of the Starlet Flue Exit Shield *Part Number 5925-2500*

Date: 1/8/2003

Page: 1 of 1

KIT CONTENTS:

Flue Exit Shield

TOOLS REQUIRED:

None

NOTE: No tools or other components are necessary to install the Starlet Exit Shield.

PROCEDURE:

1. With the long portion of the shield pointing straight up, place the shield on the back of the stove so that the hooked prongs fit inside the rear shield shell, just under the flue collar. The straight prongs will rest against the outer surface of the rear shield shell.
2. Center the shield on the back of the stove.
